

# What's next?

## ACTS is...

.. a brand new course of study, initiated by a group of pastors, laypersons and regional staff from CCNC-N. While the details of the program are still in the planning stages, the ACTS team has made several commitments in the direction of this program, such as:

- Having courses offered at multiple locations across the region, and online.
- Targeting courses specifically for lay people - for example Bible 101, History of Disciples of Christ, Learning to Pray Effectively.
- Launching the initial course offering in Fall 2009.
- Formatting courses differently depending on subject matter.
- Courses fees to be kept as reasonable as possible while still retaining high quality instructors. Our goal is between \$50-\$100 depending on class size and class duration.

## What is ACTS?

### ACTS is ...

... a program which will offer a series of practical and spiritual courses, classes and retreats, in a variety of settings, delivered around the region and online. It's designed for both beginners and for people who are already leaders in their congregation who want to lead even better. The courses will be taught by both clergy and laypeople experienced in their fields.

"It's an opportunity to answer questions about your personal direction, your mission."

"It's a series of classes designed to help you grow broader and deeper in your faith and leadership."

"It's your chance to choose to be a part of the big new thing that the disciples are becoming and to learn more about your role/place in that big new thing."

"It's how do we apply the fundamentals (the Bible, the basics) to today's mission. How do we move into the new mission without leaving aside the traditions, but instead building on them?"
